
Job description

ATS Scientific Inc., a successful Canadian owned distributor of scientific instrumentation for 30 years, has an immediate opening for a **Field Service Engineer** based in our Burlington, Ontario head office. We are seeking a highly dynamic, resourceful, organized, methodical, and motivated individual to join our growing service department. ATS Scientific Inc. provide sales and service to laboratories in the Chemical, Environmental, Energy, Petroleum, Pharmaceutical industries, in addition to public sector including University Research and Government Laboratories.

This position would have the following responsibilities:

- Troubleshooting instrument failures and affecting repairs
- Conducting on-site or in-house repairs on laboratory equipment
- Conducting on-site and remote customer training
- Modifying equipment to meet CSA safety regulations
- Validation of instrumentation as to manufacturers specifications
- Installation and configuration of laboratory equipment/hardware

Candidates should possess a university degree (preferably in Chemistry) or a college diploma (Chemical Engineering Technology) and have both hands-on laboratory experience and some demonstrated service skills. Knowledge of sample preparation/extraction techniques, spectroscopy, material characterization, and chromatography would be highly desirable. Availability for occasional overnight travel (domestic and international), a valid driver's license, a personal vehicle and passport are required.

We offer a competitive salary, benefits plan, and the opportunity to work in an exciting, friendly work environment. Come grow with us!

Job Type: Full-time
